22 March 2018

Logiqstar Partner Portal Agenda

- ▶ Partner Portal Overview
- ▶ Live demo:
 - Front-end
 - CMS
 - NAV Connector
- ▶ Responsive design
- ▶ Q&A

Logiqstar Partner Portal Overview

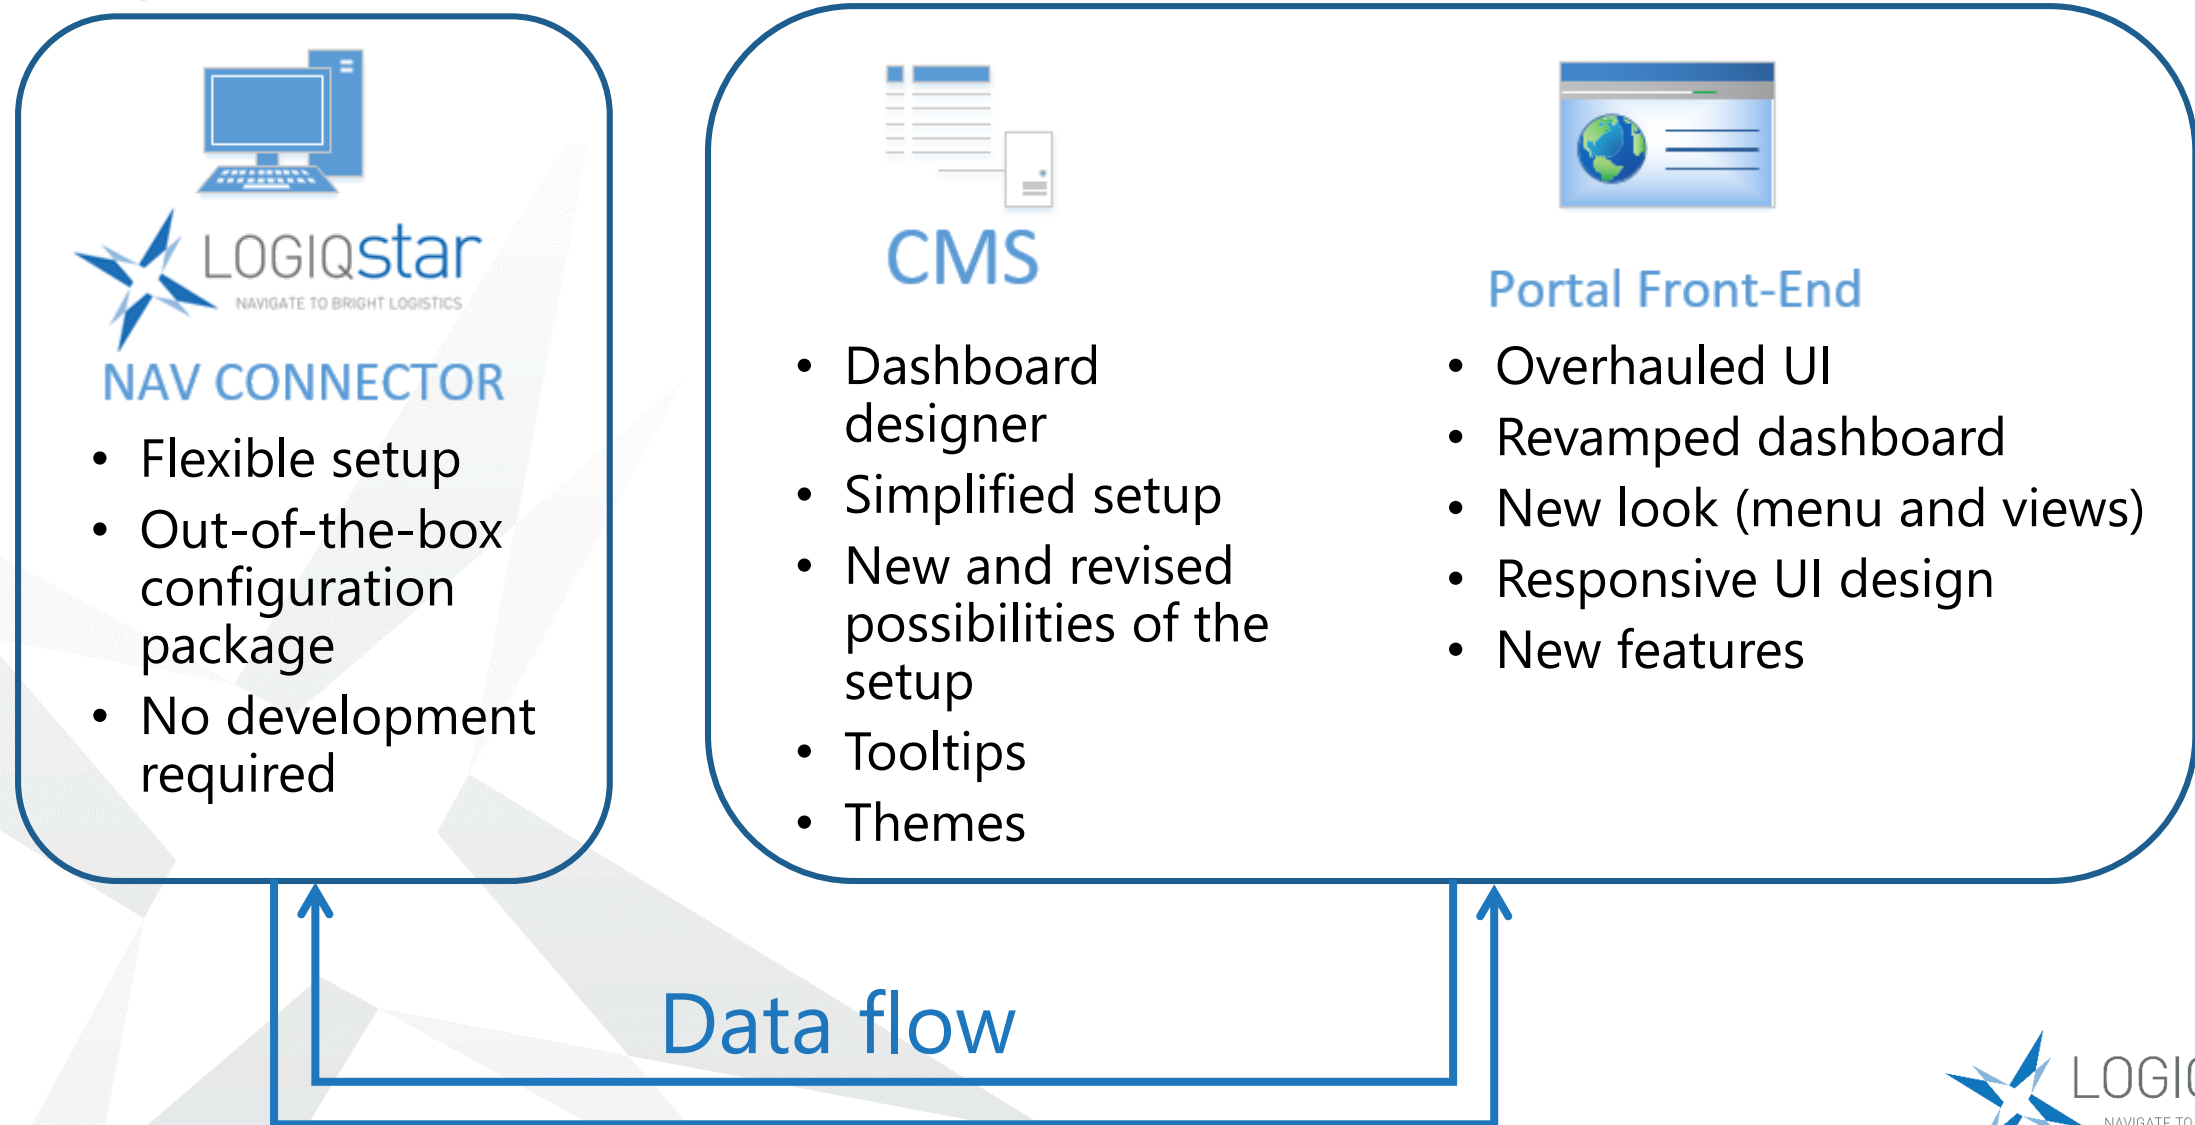

- Tailored to your corporate identity
- Tailored to the user

The Logiqstar Portal is a track & trace web application for your customers and vendors that provides an overview of the most important information from Logiqstar. It is not only the online track & trace platform to follow up your quotes, shipments, operational documents and related invoices,

but can be opened up to your suppliers in order to exchange documents by uploading/downloading them on the portal. All documents and information exchanged on the portal is synchronized back and forward with the Logiqstar back office solution.

Logiqstar Partner Portal: 3-tier solution
